

WBT50 BLUETOOTH POWERED MONITOR

The WBT50 will completely change how and where you listen to music. Not only does it sound sensational, it's also powerful enough to fill any room with great sound but even more impressive is its functionality and versatility. It's equipped with 2 optical, 1 Stereo RCA, and 1 mini jack input so it easily connects any device of virtually any age, includes Bluetooth to wirelessly send music easily, and even includes 2 USB 5v inputs to charge your devices. Connect it to your iPod, your TV, your computer, or simply put them on a bookshelf and control them via Bluetooth. An included remote gives you full control of what you hear so start thinking about where in your house you need to bring music today!
